

## Learn & Improve Professional Skills (LIPS) Track – Session 4

Oncology and Theranostics Committee

Sunday, September 10, 16:45 – 18:15

### Session Title

**Residents for Residents**

### Chairpersons

**Valentina Ambrosini (Bologna, Italy)**

**Donatienne van Weehaeghe (Ghent, Belgium)**

### Programme

16:45 – 17:05 **Resident 1: Raphael Metz** (Nantes, France): PET/CT cases in thoracic oncological disorders

17:05 – 17:30 **Resident 2: Stephan Himmen** (Essen, Germany) : PET/CT cases in abdominal/pelvic oncological disorders

17:30 – 17:55 **Resident 3: Stefania Sperti** (Padova, Italy): PET/CT cases in neurology

17:55 – 18:15 **Resident 4: Sanne Jansen** (Amsterdam, Netherlands): PET/CT cases in infectious diseases

### Educational Objectives

1. Improve PET/CT images interpretation
2. Enhance audience/speakers interaction through live polling in a friendly environment
3. Increase knowledge of potential pitfalls in image interpretation using various radiopharmaceuticals

### Summary

A purely young attendees session aimed at enhancing the interaction between young and senior residents in a friendly environment at international level through active discussion of clinical challenging cases (3 to 5 Q&A's are required within each talk). Each presentation will include teaching points as well as educational tips from seniors to younger residents.

### Key Words

PET/CT, image interpretation, pitfalls, oncology, neurology, inflammation
